About This Game

Neon Aileron is a retro-style shooter where enemies spawn to the beat of the music. Neon Aileron was created to evoke memories of playing older shooters that pre-date the bullet-hell genre. We call this bullet-lite, because the focus is on shooting enemies instead of dodging complex bullet patterns. We designed this game for fans of U.N. Squadron, Gradius, and Thunder Force.

Features

- Bullet-Lite Shoot 'Em Up - Spend more time shooting, less time dodging.

- Synchronized Soundtrack - This game features a custom synth soundtrack by Von Hertzog. Enemies spawn to the beat of the music, bosses attack to the beat of the music.

- Dynamic Damage System - Player ships can take damage to non-critical parts. Damage to one or both wings will impair

the flight controls, but a skilled player will be able to continue through the mission.

- Non-Linear Level Selection - Select and fly missions in the order you prefer. Skip some missions entirely if you choose.

- 3 Pilots To Choose From - Each pilot has their own unique ship, ability, and story.

- Super Weapon - Charge your super weapon by collecting energy containers. Activate your super weapon to take out large enemies or large groups of enemies.

- Weapons - Unlock up to 5 weapons. Select and use 2 weapons at a time. Your super weapon will be based on the weapons you combine.

- Local 2 Player Co-Op - Play locally with a friend (couch optional).

Title: Neon Aileron
Genre: Action, Indie
